DATOMATION

DATING PROFILE DATA SCRAPER

Android debugger + AI agents, running on real devices.

AGENT 01 · CAPTURE

AGENT 02 · VISION

AGENT 03 · EXTRACT

```
profile.json
{
  "name": "krishna",
  "age": 18,
  "fields": {
    "location": "Deoria, India",
    "distance": "2mi away",
    "height": "165 cm (5'4")"
  },
  "sections": []
}
```

live capture · stitched screenshot + accessibility dump

01

ADB CAPTURE
no root · rate-limited

02

AI EXTRACT
fields normalised

03

JSON OUT
PNG + XML provenance

SCHEMA & QUICK START

Every capture ships as three artefacts, one stem.

FILES

- 📄 profiles/<ts>-<user>.png stitched screenshot
- 📄 profiles/<ts>-<user>.json structured fields
- 📄 xmldata/<ts>-<user>.xml accessibility dump

PROFILE JSON

```
{
  "name": "Maya",
  "age": 24,
  "fields": {
    "activity": "Active today",
    "location": "Delhi, India",
    "distance": "5mi away",
    "zodiac": "Libra"
  },
  "sections": []
}
```

QUICK START

- \$./phone.py selftest # device + stitch self-check
- \$./phone.py profiles 5 # capture 5 profiles + JSON
- \$./probe_api.sh # unauthenticated API map

PRICING

Pay only for delivered profiles.
Structured JSON + XML + stitched screenshots.

BASE RATE

\$0.10 / profile USD · minimum 25 profiles

PROFILES	\$ / PROFILE	DISCOUNT
25+ from \$2.50	\$0.10	BASE
100+ from \$8.00	\$0.08	-20%
500+ from \$30.00	\$0.06	-40%
2,000+ from \$100.00	\$0.05	-50%
10,000+ from \$400.00	\$0.04	BEST VALUE -60%

Volume discounts up to 60%

Prices in USD. Minimum order \$2.50.
Delivery: JSON + XML + screenshots. API on request.

App-layer profile intelligence

Android-debugger capture and AI extraction - feeding Foundry, Gotham and AI workflows.

WHAT WE BRING

- 1 Device farm**
Galaxy-class Android over ADB - no root, rate-limited, operator-attended.
- 2 Capture**
Per-profile stitched screenshot plus the full accessibility XML tree.
- 3 AI extraction**
Agents normalise name, age, city, distance, height, zodiac and traits.
- 4 Provenance**
PNG + JSON + XML per record - raw source retained for audit.
- 5 API recon**
Unauthenticated endpoint map of the target application.

HOW PALANTIR CAN USE IT

Foundry - ontology enrichment

Resolve profiles to Person, Place and Device entities; enrich identity graphs with app-layer attributes.

Trust & Safety - fraud detection

Surface fake profiles, bot farms and romance-scam clusters from attribute and density anomalies.

Gotham - investigations and OSINT

Pattern-of-life, location-distance and activity signals for monitoring and investigative work.

AI / ML - corpora and simulation

Labelled profile corpora for model training, red-teaming and market simulation.

Commercial options

Two ways to acquire the datomation platform and pipeline.

TECHNOLOGY BUYOUT

\$69,000

USD · one-time

- Complete source code and IP transfer
full capture, agent and probe tooling
- Device-farm playbooks and dataset schema
plus evaluation pack
- 1 year of support and updates
direct engineering access

EXCLUSIVE LICENSE

\$250,000

USD · exclusive term

- Exclusive commercial rights
no competitor resale
- Full source access under license
your stack, your cloud
- 3 years of support and updates
priority engineering support
